

SANDPIPER ENERGY UPDATE OF CONVERSION EFFORTS IN OCEAN PINES

Sandpiper Energy, a subsidiary of Chesapeake Utilities, has steadily been continuing conversion efforts in Ocean Pines. As of June 15, 2018, 2,799 residents and business within Ocean Pines have been converted to natural gas.

Sandpiper has updated its map depicting its conversion areas; this updated map is available on the Sandpiper Update section of the Ocean Pines Association's webpage. As the conversion schedule continues, postcards will be sent to residents and businesses who are next on the schedule. The postcards will highlight the week when Sandpiper's technicians will be in their area to answer questions, perform appliance evaluations, and ultimately set a temporary tank. The postcard also includes the phone number (855-290-9628) that can be called should there be any questions or if the customer is unavailable that week to meet with the technicians.

As conversions continue, Sandpiper appreciates customers understanding and remembering the need for open communications during this process. Availability is also key. The OPA website is the best place to see which area Sandpiper plans to work in next, then watch for the postcard. For a smooth conversion, it is important for you to allow Sandpiper's Conversion Coordinators to complete their assessment of your home or business as soon as possible. It is also important for customers to communicate any concerns or issues to Sandpiper's conversion team. Sandpiper cares about its customers' needs and the community it serves. The Conversion Coordinators will work with you to schedule both the assessment and conversion of your appliances.
