

October 17, 2016

To the OPA Board of Directors:

I respectfully request an appeal to the ruling of the Architectural Review Committee from October 4th, 2016 regarding the fence and planters that was approved for 74 Wood Duck Drive.

I have filed a complaint with both public works and the general manager in July of 2016 with no results.

I would now request that the OPA Board of Directors review my complaint and assess the compliance with the ARC guidelines of the Association.

Best regards,

Earle Moore
