**Director's Report**

- The committee reviewed and discussed the capital portion of the recreation budget. The bleachers, storage shed, painting of the basketball courts, paving Court 2 at Paddle, and the lining of all four paddle courts were all still in the budget. Mike would still like to get a scoreboard for the gymnasium, but it is too expensive. The committee suggested perhaps asking Coca Cola to sponsor/donate money to purchase one.
- There is still a concern that the community organizations and social groups that meet in the community center will conflict with the summer camp when it is in session. The groups were informed of this situation.
- The additional Recreation Specialist begins May 1.

**Old Business**

- Parks Reports- no park reports this month.

**New Business**

No new business.
